The Board then voted to have the General Secretary represent the local Association at the formal opening of the Railroad Y. M. C. A. Building at Russell on Fidday of this week, after which the meeting was adjourned.

The Memhership Committee is kindly requested to meet at the Association quarters this evaning to transact special dusi-ness. A full attendance is desired.

The residence of Mr. Joseph Peed at Mayelick is now ready for the plasterers.

# WEALTH OF A WALLET.

Waiiets are out of fashion now becaus Wallets are out of rashion now secause a man can easily carry in his pocket enough money to last him on a journey from Louisvilia to San Francisco and back without risk of its hecoming crumpled and torn. He can take 850 out of his and form. He can take \$50 out or ass pocket and count it out without having to go through complicated arithmetical operations. This is one convenience of currency that is, in part at least, metallic

currency that is, in part at least, metallic.

An old wallet, which belongs to a certain Louisville collector of curios, is filled with a hundance of paper money and does very well for an object lesson on the minor conveniences and inconveniences of different kinds of currency. At parent the paper money in the wallet seems to be a convenience of the paper money in the wallet seems to be soften as the paper money in the wallet seems to be soften as the paper money in the wallet seems to be soften as the paper money in the wallet seems to be soften as the paper money in the wallet seems to be soften as the paper money in the wallet seems to be soften as the paper money in the wallet seems to be soften as the paper money in the wallet seems to be soften as the paper money in the wallet seems to be soften as the precious ores, and and the paper wallet seems to be soften as the precious ores, and and the paper does not be provided as the paper wallet seems to be soften as the paper wall the paper wallet seems to be soften as the paper wall the paper wallet seems to be soften as the paper wall the paper wall the paper wallet seems to be

of conveniences and inconveniences of color was so carree the Treasury quarket, different kinds of currency. At present the paper money in the wallet seems to he arranged in the serve pockets with reference to the value of the various promise nory notes, houds and so one so curion, or for the artistic beauty of the designs and engraving.

But in those days now gone by, but which the party of Mears. Bryan and going to buy a new pair of suspenders, a man going to buy a new pair of suspenders, and going to buy a new pair of suspenders, the and a hat would have he do climb on to the street-car indeen down with this least processes, the contract of th cars were mule cars, and there ware no call grounds. With the exception of a siots to drop nickels into. The passen primitiva issue of South Carelina, about the most miserable in general get-up is a second of the most miserable in general gen ger might not have a nickel in his pocket,

so he would undo and open his wallet
and hand out to the canductor two Uni
ted States three cent shin-plasters, reof the same denomination, second series,
celving one cent in change. At each of
1885, hear a would engraving of a widow
the stores he would bunt through his
lady with dark rings heneath her eyes. the stores he would hust through his lady with dark rings heneath her eyes, seven compartments to find pleces of Goorgis issued a wood-engraved article printed paper, the face value of which with three horny-handed (white) cons of would amount to something about the toil in hiouses, aprons and rolled-something the manufacture of the needed suspenders, the or the contract of the needed suspenders. Then the clerk would give him his change in more pieces of paper, which he would sort out and carefully stow away in their appropriate compartments. Even the threa-cent bills would have to be smoothed out and stacked, to prevent too much creasing with the resulting evil of illegi-

hility. But these were only trifling annoyances in comparison. The worst of it was when the formal, legally worded state-ments of promises on the faces of the notes began to ha doubtful and the paper money gradually fell away in valua. Supposing, for instance, that the man in search of new suspenders went out one morning in the fail of 1863 with a bundle morning in the fail of 1985 with a bundle of these engaging-looking little documents—"The state of Georgia will pay the bearer 35 cents at the Treasury," etc. "These suspenders are worth 35 cents in gold," says the clerk. "Georgia State currency. Then if will be \$87.5 a pair, please." "But the notes were worth 10 per cent. of gold yeaterday," says the purchaser. "That was yesterday," the clerk explains. "Haven't you seen the papers this morning? A serious Confederate disaster is reported in Virginia." cherry on it, which is very much of a curriculty—no see a tree full his was and only one ripe cherry at the same time.

The Darlington, Wis, Journal says deditorially of a popular patent medicine: "We know from experience that Chamberlain's Colic, Cholera and Diarrhoes Remedy is all that is claimed for it, as en two occasions it stopped exercutealing pains and possibly saved us from an untwelvent pains and possibly saved us from an untwelvent pains and possibly aved us from an untwelvent pains and possibly aven the possible aven the possible of the city, the ealpet of his tractive and homelike, and by give the carried fat wallets. The financial leases of the war were thoroughly wall and at receptions, entertainments and in other directions. The Beard then work the possible proposed to tracel for the time when the vertex said to have the General Secretary represent the local Association at the formal open. been written by Father Ryan became ilterally true—"Representing nothing on God's earth now."

God's earth now."

Those linas, by the way, have been forgotten by most people. They were printed on the hacks of a number of Con federate \$5 bills, and the bills were sold as souvenirs for a trifling price at a characteristic of the sold as the the old wallet there is one of these hills; the verses on the back run like this:

Representing politing on God's earth now, And naugat in the waters below it,
As the plodge of a Nation that passed awa;
Keep it, dear friand, and show it.
Bhow it to those who will tend an ear
To the sate that triffs will tail off Libberty born, of a partnot's dream,
JOF a torm-oresided Nation that fell.

### Perhaps You Have

An old-fashioned key-winding watch that belonged to

your father---perhaps your grandfather---and would like to wear it but for the annoyance of searching for a key every time you want to wind it.

I can reconstruct it so that you can preserve the old watch with all its associations and at the same time . enjoy the use of a modern stem-winding watch.

BALLENGER, Jeweler.

There is a wonderful veriety in this "passing show" of paper money which makes it interesting on other than finan-cial grounds. With the exception of a toil in blouses, aprons and rolled up shirt sleeves. On the other hand, some of the earlier issues are extremely handsome examples of engraving. This is notably the case with a three-dollar hill of the Planters' Bank of Tennessee, dated De-cemher 1st, 1800. The design on this note was probably a reilc of ante-hellum days, and the figure three on the right is a really noble piece of decorative engrav-ing in the classic style. Louisiana in 1862 seems to have afforded elaborate printing, hut the design on her five-dollar bills, representing a Southern knight in armor in the act of stabbing a Yankee lady who has fallen from her bicycle, while the eagle vainly flaps his wings under the knight's mailed heel, cannot be

commended
The Confederate States notes are, on the whoie, poorer-looking than those of the individual states. The smaller de nomination look like rough bibiters, and the pictures, especially poor Jeff Davis and Judah P. Benjamin, are decidedly the pictures are specially poor Jeff Davis and Judah P. Benjamin, are decidedly to be pictured by the picture of unpicasant.

But the interest in these pieces of pa-per is in the pathetic decline of their values. No mora terrible lesson on the power of a Government "to make money

WE'RE FOR AMERICA@AMERICANS!

wheat rise and fall together has been knocked higher than GILDEROY'S kite While silver last week touched the low est point known for over three years cash wheat has advanced fully 25 cents a bushel. Our Popocratic howlers will have to set up a new howl or else go where people do not read the news

THE contributions of the Montan and Colorado members of the Silver Trust to the Bryan campalgu fund ar estimated at \$600,000 by The New York World, which gives names and amounts. Hear! Hear! What means this? We thought the altogether virtuous BRYAN was running in opposition to "Trusts!" And here's the biggest Trust of all "whacking np" for his election !

ACCORDING to the census report wages in the manufacturing industries of the United States increased 5; per cent. from 1870 to 1880, and 39 per cent. from 1880 to 1890. The annual average was \$328 in 1870 and \$484 in 1890. And yet the Bryanites have the effrontery to claim that these wages have gone down since 1873 and ask werkmen to vote for free sliver, which would in ect reduce wages 50 per cent. where it did not wipe them ont altogether by closing up the factories.

In expressing his regret that his en gagements would not permit him to accept an invitation from the Wageearners' Patriotic League of Maryland Miver an address at Baltimore, Sec ary CARLISLE said:

"If there is any laboring man in the Dailted States who really believes the money he receives for his toil is too good, that it will hay too much food and clothing for himself and family, or pay rent for a better house than he should have, then it is his duty to vote for free and nullimited coinage at the ratio of 10 to 1. If there is any labor-ing man who has saved money out of his earnings, and has deposited it in a savings bank or in a building and ioan sawciation or a life inserance policy to the protection of his family, and he desires to have the proceeds of that in-cretimant returned to him in dollars worth half as much as those which he gold, he also should vote for free coin-age of aliver at 18 to 1." owill hay too much of himself and family, or a better house than he is the same of the sam

# The Ledger's Leaflets—No. 27.

The Republican party has been legislating to make the dollar dearer. . . . Senator Sherman said January 25th, 1890, "If our present currency is estimated at \$1.400,000,000 and our population is increasing at the rate of 3 per cent. per anum, it would take \$42,000,000 increased circulation each year to keep pace with the increased population." . . . What provision has the Republican party made for the supply of the money that we need? None whatever.—Mr. Bryan's Greensboro, N. C. Speech.

There was added to the metallic currency of the country last year \$66,196,781, or 50 per cent. more than sufficient to "keep pace with the increase of the population." In the preceding year, 1894, the amount added to it was \$89,184,988, or more than twice the amount needed for this purpose. There has not been a year since the repeal of the Bland Law in which the increase from the coinage of gold alone was not much more than enough to keep pace with the growth of population. The reduction of the money of the country and of that in circulation is due to the fact that the Tariff law which Mr. Bryan helped enact brought enormous quantities of foreign goods into the country and took money out of it to pay for them instead of keeping it at home and circulating it among the workingmen at the mills and factories, as did the Mc-

John G. Carlisle said in 1878: "The absolute and instantaneous destruction of one-hall the entire movable property of the world would not produce anything like the distress and disorganization that must inevitably result from the permanent annihilation of one-half of the metallic money of the world." And yet the Republican party has pledged itself to join in a conspiracy to destroy this money unless other Nations come and help us save our people.—Bryan's Buffalo Speech.

Mr. Carlisle doubtless thought in 1878 that the world would suffer if the use of silver as a money should be suspended; but it has not been suspended, and there is no intention by anybody that it shall be. On the contrary, the silver money of the world, which amounted to \$2,500,000,000 in 1878, now amounts to \$4,070,500,000, and is being increased at the rate of over \$100,000,000 a year. The silver money of the world has thus greatly increased since 1878. There is much more money in the world for each individual today than there was in 1878. The Republican party has not pledged itself to join in any conspiracy against silver, as Mr. Bryan asserts, but to co-operate with those European Nations which have recently expressed a desire for an increase in its use. Every European Nation of prominence has within the past few years expressed a desire for international bimetallism, and the time is ripe for it.

#### THE REBELS

Hold the Province of Cavile, Philippine Islands.

They Are Well Organized and Have 8,000 Mauser Rifles.

SAN FRANCISCO, Oct. 20.—The steamer Peru, which arrived from the Orient Monday brought the news from the revolution in the Philippines. The rebels now hold the province of Cavile, need to be a standard to rentre into the Interior until reinforcements arrive, lest the native troops about 700 km of 100 km or 100 km o

of life and property. Some 100 prisoners were imprisoned by the Spanlard are
ers were imprisoned by the Spanlard one
night.

The timidity of the Spanlard officers
to enter Cavile give the rebel forces, a
splendid opportunity to grather in large
numbers in the province, and to get
formidably armed and thoroughy orfor an attack they awooped down upon
the convent at Inua, a few miles from
the town of Cavile, and murdered all
the friars who could not manage to
escape, but how many were put to
death is not known.

It is friend from
sending troops into the province,
but four mea-forwar bombarded Ininns and other places where the rebel
forces could be detected for several
days and the bombardment was still
going on at the date of itse advice of
to have done very much damage as the
shells fell short and the rebels continued to hold their position.

In the Immediate neighborhood of
Manilia, but not in Manilia Itself, there
has been much fighting, and from all
been anceasful, but they have lost several of their officers, who were killed.

### KENTUCKY FOR M'KINLEY.

IRMAN SAM J. ROBERTS SIZES THE SITUATION.

Chairman Sam J. Roberts of the Re-publican State Executive Committee, in response to a telegraphic request from The New York Press, sent the following to that paper Saturday night. It is tha first authoritative statement given out by the State Committee and is regarded as a servative statement of Republican babilities in Kentucky. Following is

KENTUCKY FOR M'KINLEY. LEXINGTON, Kv., Oct. 17th. 1896.

New York Press, New York: The Republican State Executive Committee has made no claim as to the size of the ma jority in Kentucky, but it has a growing confidence that the state is safe for Mc-Kinley and Hohart. Our poil of the state, the declarations of voters as they registered in cities and towns, the con-ceded strength of the Sound Money Damecratic movement and the drift of our correspondence with the party or ganization encourage the belief that we shall win a splendid victory for McKinley, Sonnd Money and Protection. The much advertised Free-silver Republican defection is a myth. Two per cent. of the type of the protection of the party of the protection of the party of the protection of the protection of the protection of the party of the party of the protection of the party of the protection of the party of correspondence with the party or of our best informed men say it will not reach 1 per cent. The Sound Money Damocratic element certainly includes 20 per cent. of the old time Democracy, or upward of 35,000 votes, but as some o these rejected Hardin last year and voted with the Republicans, their votes helped te make up Governor Bradley's 8,000 plurailty. There is every reason to believe will be a defection of 15 per cent. over 24,000 vetes, from last year's mocratic vote, which will just offset the vote cast for Weaver in 1892, the high water mark of the Populists, who are this year fused with the Sllver Demo crats. The Republican loss from Free allver defection and scattering Populists who voted with the Republicans last year on state Issues, will, I believe, be fully balanced by Popullats who reject fusion and who will either stay at home on elecand who will either stay at home on elec-tion day or vote only for members of Congress in the Western districts of the state, where they are strong and have several aggressive Congressional candi-dates. Of the 24,000 increase in the Sound Money Democratic element over last year, the most conservative esti-males gives McKinley 50 per cent., or 12,000 votes, leaving an equal number for Palmer and Buckner. On the basis of these conservative calculations I be-lieve McKinley and Hobart will increase Governor Bradley's majority by such proportion of the Sound Money Demo-crats as decline to take any chances by voting for the Indianapolis ticket. Our advices the past few days have been exIN CAESARIA.

Anxiety Felt in Regard to the Condition of Affairs There.

Two Turkish Torpedo Boats Have Gone to the Dardanelles,

change of seniment there smoonts to little short of a political revolution. From our point of view it is impossible to figure out any other result in Ken-tucky than a great victory for McKinely and Hobart, Sound Money and Protec-tion. Sam J ROBERTS, Chairman.

J. W. Bugg, who killed Phil. Board, was convicted of murder at Harrodsburg NATIONAL DEMOCRACY.
